

Technical Architect with 15+ years of experience designing and building high-performance, user-focused digital experiences, with a strong background in Front-End Web Development using modern frameworks like React and Vue.

Extensive experience in e-commerce, front-end architecture and working with a wide range of CMS platforms. Strong track record of leading technical development and delivering complex digital projects for international brands. Experienced working remotely with distributed teams, bridging the gap between design, development and business requirements..

Big fan of AI and vibe coding to be more productive, move faster and experiment. But still enjoy writing, tweaking, reviewing and understanding the code myself..
